DSA SPYDER MOUNT (UNIVERSAL REMOTE WEAPON STATION)

INTRODUCTION

DSA SPYDER (URWS) provides total safety to the weapon operator with its remote weapon system, which can be operated without difficulty while mounted on top of a low payload vehicle or in a static position. The Spider mount can accept guns, weapons from 5.56 to 40mm grenade launcher. The DSA Spyder (URWS) is an ideal system for front line offensive attacks against on-coming threats on security installation and sensitive areas/bases.
