

# DSA SWIVEL & LINK ASSEMBLY

## INTRODUCTION

is a high-reliability, load-bearing connection component engineered to integrate system parts while facilitating unrestricted rotational motion.

## SPECIFICATIONS

S. NO.	DESCRIPTION	DETAILS
1.	Type of Assembly	DSA SWIVEL & LINK ASSEMBLY
2.	Materials	SS 304 or 4140-4340
3.	Diameter 1	$15 \pm 0.2\text{mm}$
4.	Diameter 2	$25 \pm 0.5\text{mm}$
5.	Design	NATO Standards Compliant
6.	Origin (Country)	Pakistan

Note: Assemblies be subjected to break load test. All loaded assemblies should take a minimum load of 140kg per MIL-STD - 105E. Special level S-3 AQO.65 Normal inspection
